Helvetia

Rigour and vigour, pragmatism and precision, this is what Switzerland stands for. The Helvetia collection merges square shapes and cool proportions, form and functionality and visual pureness through details such as the hidden drain. A collection inspiring confidence through solidity and style.

Italica

Meet Milan, meet its people with an instinctive sense of beauty combined with metal concreteness. This suspenseful contrast is reflected by the Italica collection: rounded shapes, simple and stylistically confident. Visual pureness through hidden drains.Distinct and timeless.

相约米兰，让这里的人们感受到与美的心灵上的联系，再将这种潜意识描画成现实。这种敏锐的转变由“伊塔”来实现：圆润的形态、简约以及风格上的自信。视觉的纯净巧妙隐藏了排水口，清晰而永恒。

Inspired by the archetypical shape of the bucket, the washbasin acquires elegance through its well-balanced proportions, be it in the top-mount or the floor standing version.

灵感源于水桶的经典造型，这个系列的洗手盆通过其完美的比例尽显优雅，它既可以是台面盆，也可以是落地盆。

THE WORLD OF **AXENT**

AXENT Group is an important manufacturer of sanitary technology and is a leading global supplier of shower toilets. Established in 1999, AXENT is the holding company of plumbing technologies innovator WDI, which was founded in 1996. To strengthen customer relations and extend its global reach, AXENT opened its US office in 2003 and developed a European base in Switzerland in 2008. AXENT's product portfolio includes leading-edge shower toilet, high-quality sanitary ware, bathroom furniture and bathtubs as well as innovative performance technology for bathroom products.

The company's key to success is a combination of industry knowledge, in-house expertise and continuous research into new technologies. With more than 100 engineers in its research and development centre, alongside over 3,600 employees, AXENT Group is well positioned to achieve its vision to become the world's most innovative and reliable provider of sanitary technology.

AXENT 的世界

AXENT集团是卫浴技术的重要制造商且是智能坐便器的全球领先供应商。初建于1999年，AXENT是身为管道技术创新者并创办于1996年的WDI的控股公司。为加强客户关系和扩大其全球影响力，AXENT于2003年开设了美国办事处，并于2008年在瑞士开发了一个欧洲基地。AXENT的产品组合包括顶尖的智能坐便器、高质量卫生洁具、浴室家具、浴缸以及卫浴产品创新性能技术。

公司成功的关键在于行业知识、公司自有专长和对新技术的持续研究的结合。研发中心有100多名工程师，还有超过3600名员工并肩作战，AXENT集团进行良好定位，努力实现成为世界上最具创新力且可靠的卫浴技术供应商这一美好愿景。

CRAFTSMANSHIP

Overseen by its highly qualified engineers, AXENT merges Asian tradition with modern design. Authentic craftsmanship and the ancient art of ceramics are transformed into top quality materials, finishes, technology and design. The end result is a desirable blend of superior comfort and contemporary design that delivers environmental benefits.

QUALITY IN DETAILS

Great design is more than the sum of its parts. AXENT lives this philosophy by paying close attention to every aspect of its products, from design and materials, through to function and finishes. Beautiful detailing is used to create a practical, yet aesthetically pleasing and comfortable whole. The result is a remarkable achievement every time.

工艺技术

在高素质工程师的监管下，AXENT将亚洲传统和现代设计相融合。正宗的工艺技术和陶瓷的古老艺术被转化为优质的材料、装饰、技术和设计。最终的成果是优越的舒适性和当代设计的一个理想混合，它提供了环境效益。

品质细节

伟大的设计超越其各个部分的总和，AXENT将这一理念运用到各方各面，从设计和材料，再到功能和装饰。出色的细节设计创造出一个实用、美观和舒适的产品，每次新产品的诞生都成为举世瞩目的成就。

TECHNOLOGY

Innovation is more than an aspiration at AXENT. The Group is wholly committed to creating a future where beautifully crafted products bring an, as yet, unimagined level of quality to our lives. By investing consistently in research and development, AXENT is strengthening its position as a pioneer.

Already, revolutionary new technologies like the I-FLUSH system – a mechanical solution – operate without cisterns, pumps and use 35% less water than traditional flushing solutions. Sustainability is, undoubtedly, a central driver in AXENT's vision for tomorrow.

技术

在恩仕，创新不仅仅是一种美好的愿望。集团完全致力于创造一个未来，在这样的未来中，精雕细琢的产品能够给我们的生活带来至今仍难以想象的质量水平。通过持续投资于研究与开发，AXENT正在强化其作为先驱者的地位。

早先，恩仕就开发出革命性的新技术如I-FLUSH系统，一个机械力学解决方案，它无水箱和水泵操作且比传统冲刷方案节省35%的水。毫无疑问，可持续性是恩仕未来愿景的中央驱动。

HYGIENE AND ECOLOGY

AXENT always takes its lead from nature. The self-cleaning, antibacterial glaze of its ceramics has been inspired by the lotus plant leaf, which is one of nature's most water-repellent surfaces.

The enduring finish has a surface tension ten times higher than conventional ceramics; it allows water to drain off easily, prevents stains and scale from forming and aids the cleaning process. The resulting reduction in cleaning materials and water use delivers long-term environmental benefits.

卫生和环保

AXENT总是从大自然中吸取灵感。陶瓷的自洁抗菌釉面正是由荷叶得到启发，它的表面是自然界中最抗水的表面之一。

持久的表面处理具有比传统陶瓷高十倍的表面张力，它可以使水轻易排出，防止污渍和水垢的形成且有助于清洁过程。由此带来的清洁材料和用水量的减少提供了长期的环境效益。
