

SIMPLE. SMART.
BEAUTIFUL.

Experience the latest innovations ushering in a new era
of bathroom design and technology.

reddot design award

Innovative Design Isn't Just About What Looks Good.

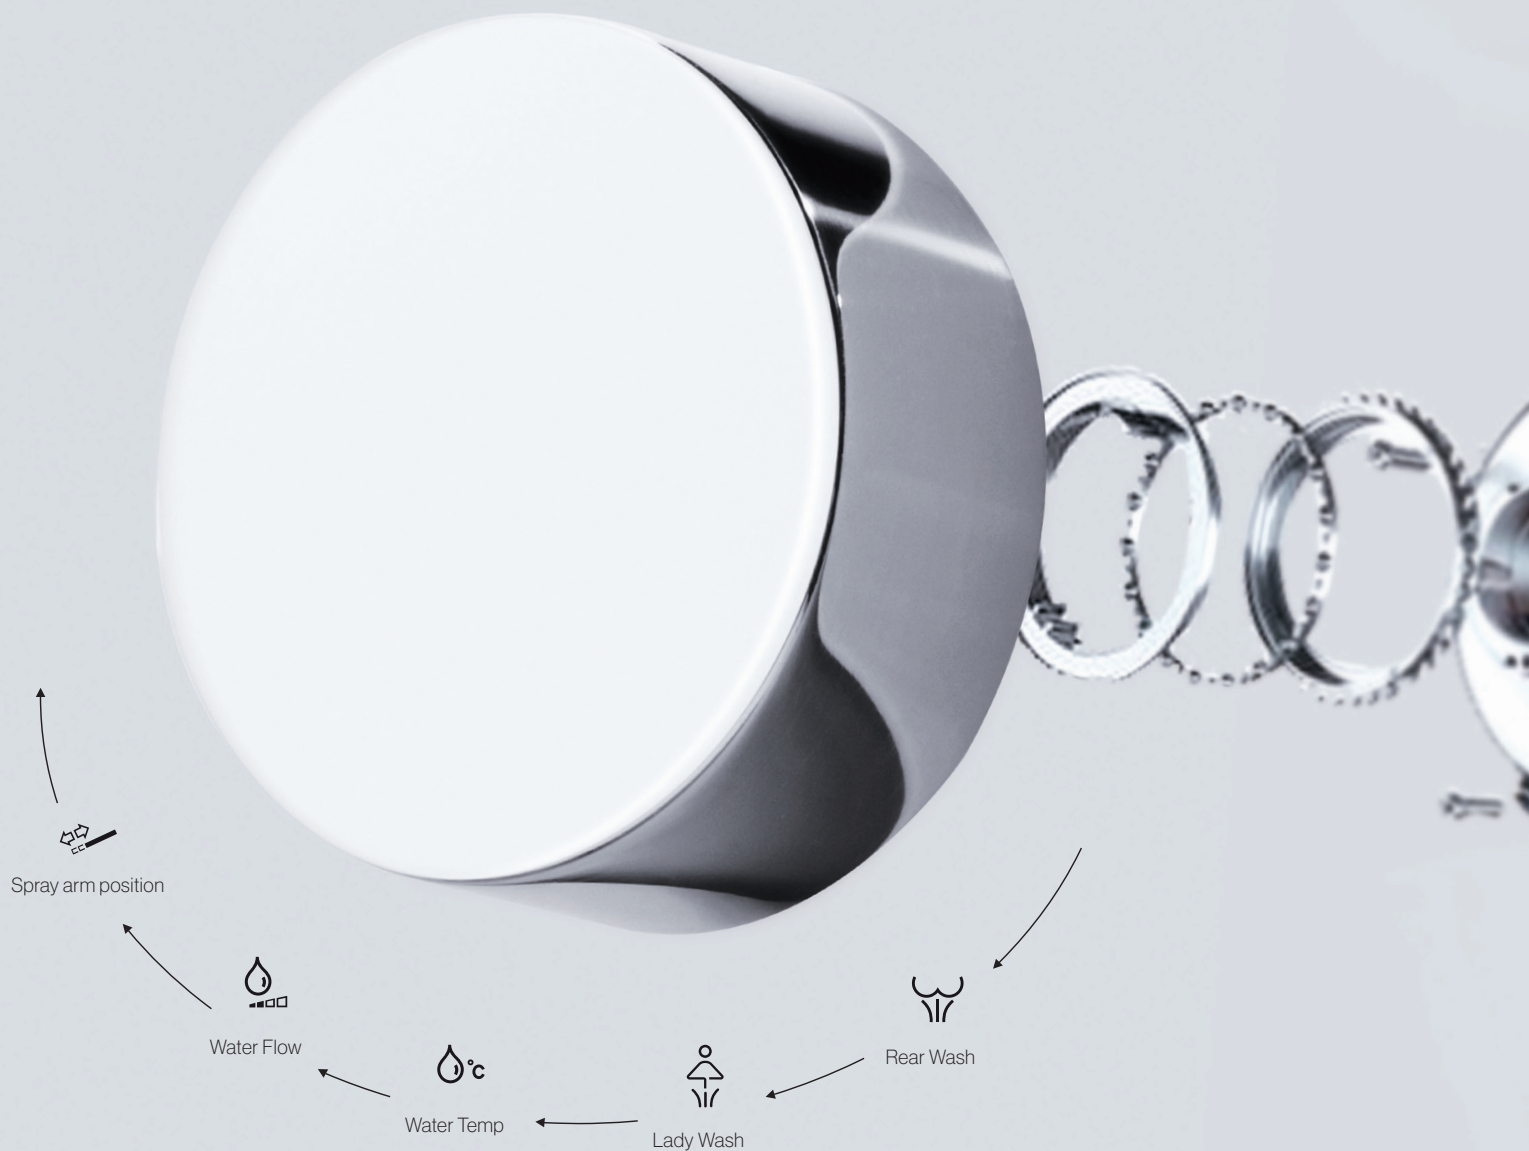

Design needs to enhance its surroundings by fulfilling a purpose in improving your daily life.

AXENT's intelligent toilets are engineered to surpass your expectations for bathroom standards by offering the world's latest and greatest innovations in homeware technology. AXENT's bathroom suites are designed to make your life more comfortable with smart, predictive and personalized technologies without the unnecessary bulkiness and lackluster design of traditional bathroom products.

MANY FEATURES ONE CONTROL

AXENT's award-winning intelligent toilets introduce modern luxury into your home with the touch of a button. Each intelligent toilet can be personalized to regulate the bidet wand's position, water temperature and flow, dryer intensity and seat warmth.

Each toilet is equipped with three mediums for single-touch feature management: the ONE.DIAL (located on the left side of the toilet seat), AXENT's intelligent toilet remote control, and the AXENT Smart Control iOS/Android compatible mobile app.

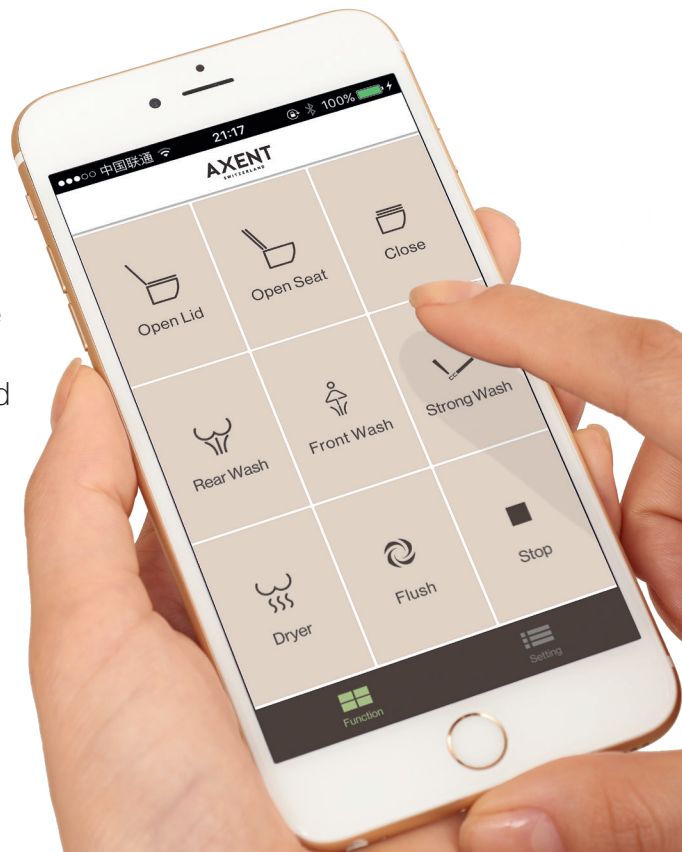

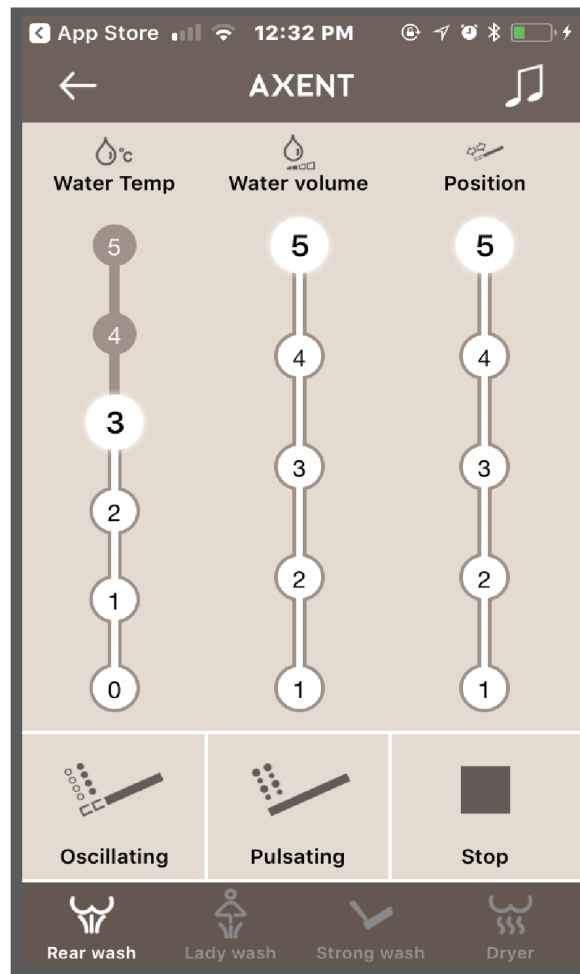

AXENT'S INTELLIGENT TOILET REMOTE CONTROL

AXENT's intelligent toilet remote control provides easy to manage control of each toilet's multifaceted washing functions. Every remote is equipped with personalization settings to ensure your preferred experience is programmed and ready for every use.

AXENT SMART CONTROL APP

Intelligent toilet personalization can also be managed through the AXENT's Smart Control mobile app. The AXENT Smart Control app is available for installation on all of your Bluetooth compatible Android and Apple iOS supported devices.

MADE FOR YOU

AXENT's intelligent toilets offer complete personalization.

From 180° degrees of full-coverage rear to front cleansing, to adjustable seat warming, water oscillation and instant water warming settings, AXENT's intelligent toilets offer the latest technological features in personalized bathroom systems.

TANKLESS WITH VACUUM V FLUSH TECHNOLOGY

INNOVATIVE TANKLESS TECHNOLOGY

AXENT's tankless toilets use about 25% less energy-intensive ceramics than conventional siphonic toilets.

This Vacuum V Flush technology uses a two fold hydrodynamic system to deliver a powerful flushing action every time it's triggered.

ALWAYS, SPOTLESS

with Easy Clean Technology

AXENT's Easy Clean Technology is a remarkable proprietary ceramic glaze that deflects bacteria to protect your family while keeping your toilet sparkling clean throughout its lifetime.
